阅读专项 | 目标 248.5 稳拿 170+ | 不含听力（听力用音频另练）

一、阅读题型总览与通用解题方法

1. 三大题型考点与分值

题型	题量/分值	考什么	答题顺序
A 选词填空	10题 / 35.5分	词性判断+词义+固定搭配	最后做
B 段落匹配	10题 / 71分	关键词定位+同义替换	先做
C 仔细阅读	10题 / 142分	细节/推断/主旨/词义+同义替换	其次做

建议 40 分钟内：B 约10min → C 约22min → A 约8min。

2. 干扰项四大套路

① 偷换概念（选项改换主体/对象） ② 无中生有（原文没提的信息） ③ 绝对化（only/all/never/always 慎选） ④ 过度推断（“可能”被说成“必然”）

3. 通用技巧口诀

选词填空：先判词性→看搭配→已用划掉。

段落匹配：题干划实词→回段扫→人名/数字秒定位→同义替换。

仔细阅读：读题干划名词→定位那一两句→答案=同义替换，排除看套路。

4. 读不懂是单词还是语法？

表现	诊断	主攻
一句≥2-3个生词就读不懂	单词（主因）	先背词
词都认识仍抓不住结构	语法（次因）	练主干→修饰拆句
都懂却选错	技巧	回看本题精讲

5. 高频同义替换规律库

规律	实例
同根词性互换	correlates↔correlation; worsen↔gets worse
近义词	delay↔postpone; advice↔recommendations
短语↔单词	has not yet settled↔not concluded; made use of↔used
抽象↔具体	blood flow↔supplied with blood
主被动/否定/指代	被动态还原、双否、还原 this/they

二、真题题路精讲（逐题）

1. 选词填空（Q26-35）

原文中每个空号后面附一个小手写框：先标注你判断的词性（n. / v. / adj. / adv. 等），再在下方做选词。

Scientists have known that depriving adult mice of vision can increase the sensitivity of individual neurons (神经元) in the part of the brain devoted to hearing. New research from biologists at the University of Maryland 26 that sight deprivation also changes the way brain cells 27 with one another, shifting the mice's sensitivity to different frequencies.

"This study 28 what we are learning about how manipulating vision can have a 29 effect on the ability of an animal to hear long after the window for auditory (听觉的) learning was thought to have 30 ,

" said Patrick Kanold, senior author of the study.

It was once thought that the sensory regions of the brain were not 31 after a critical period in childhood. This is why children learn languages much more 32 than adults. Kanold's earlier research disproved this idea by showing that depriving adult mice of vision for a short period increased the sensitivity of individual neurons in the auditory cortex (皮质), which is devoted to hearing.

Young brains wire themselves according to the sounds they hear frequently, assigning areas of the auditory cortex to 33 frequencies based on what they are used to hearing. The researchers found that, in adult mice, a week in the dark also changed the 34 of space to different frequencies.

"We don't know why we are seeing these patterns," Kanold said. "We 35 that it may have to do with what the mice are paying attention to while they are in the dark."

 匹配题“画关键词”原则 (先看这里)

1. 先题干、后原文：逐条读 10 个陈述句，在题干上划词，不要先通读文章。

2. 优先划定位性最强的词：专有名词（人名/机构/地名）、数字/年代/百分比、大写与引号词——唯一性强，回文秒定位。

3. 其次划：名词/名词短语（找“话题”）、动词/形容词（态度与变化）、限定词（only/all/most/first/never...，常是题眼）。

4. 少而精：每条划 2-4 个实词；不划 the/of/and 等虚词，也不划 people/study/author/passage 等通用词。

5. 预判改写：数字/专名少变；普通词易同义替换（purchase→buy；due to→because of），划词时就想“它会长什么样”。

6. 复核：一段可对应多题；定位后必须确认“题干 ⇌ 原句”构成同义替换，避免只碰上一个词就选。

3. 仔细阅读 Passage One（Q46-50，金融素养与财商教育）

As a university student, I've come to realise just how little I know about money. I've come to the brutal realisation that Australia's youth are being done a great disservice by not receiving any consistent financial education.

Diving headfirst into the crash course of starting university, I've quickly tried to get myself up to speed with the financial terms of the modern era to help manage my personal finances.

I've read some financial education books, done some online learning, and have spoken to my nearest and dearest for their pearls of financial wisdom. There are undoubtedly hundreds of great resources out there for those wishing to improve their financial literacy, but while I was researching, I still kept wishing that I didn't have to play catch-up with the money world. I felt that I was sailing the financial seas with no skills and no life jacket!

However, after talking to my friends who felt the same, I quickly realised that it wasn't my ignorance but the lack of financial education in our schooling system that is leaving high schoolers seriously behind in the modern world of money.

Let's compare a theoretical financial education subject to the standard compulsory English class. On average, English may not be the most popular subject, but it's consistently on the schedule throughout high school, with all students graduating fluent in English.

A financial education subject should do just the same. It shouldn't be just a one-day event but a course integrated throughout the whole of high school that would allow students to gradually expand their financial literacy, and would prevent the need for a 'catch up' phase once we're out on our own after graduation.

In the same way that learning a language or new skills takes time, building financial skills requires practice and years to gradually accumulate bits and pieces of knowledge.

Giving young people the opportunity to become familiar with the world of money would provide them with a great advantage to enter adulthood with confidence and security so that they are able to manage their own money and look after themselves.

46. What has the author come to realise since entering university?

- He needs a crash course on financial terms.
- He is very much lacking in financial literacy.
- It requires consistent education to be financially independent.
- It is unrealistic to give all Australian youth a financial education.

4. 仔细阅读 Passage Two (Q51-55, 巧克力会灭绝? 基因编辑救可可)

Chocolates save us from many things, especially emotional distress. They comfort us in times of trouble, calming down a racing heart by channelling happy calories inside us. We all have faith in chocolates to delight us in an instant!

Recently, chocolate lovers were heartbroken as scientists claimed that they can become extinct by 2050! But hey, we have some happy news for you. Scientists can still help save chocolates from dying out! If you are not aware as to why scientists made the statement about the death of this wonderful thing, let us tell you the facts. Chocolate trees, whose seeds are used to make chocolate, grow in the tropical plant world and require very specific weather conditions to prosper.

Now, fifty percent of the world's cocoa (可可) beans come from two countries in West Africa: Côte d'Ivoire and Ghana. Scientists believe that both of these countries will experience a 3.8 °F temperature increase by 2050 due to global warming, endangering the cacao (可可树) farms in the rainforests. These farms will then have to be shifted to cooler mountainous areas, which are the natural habitat of wildlife. This will lead to some tough decisions: whether to grow chocolate or save wildlife.

Unfortunately, the crisis of global warming has already had a serious negative impact on cacao farms' yields, leading to the prices of chocolates skyrocketing. Scientists, however, are trying to find a long-term and eco-friendly solution to this problem! They are trying to modify the species with a gene-editing technology, which will transform the seedlings into a species that survives even in a drier and warmer climate.

According to a report by The Business Insider, in the University of California's new bio-sciences building, tiny green cacao seedlings are lined up in refrigerated greenhouses for a new experiment by using a technology called CRISPR. By manipulating the DNA of plants, this technology is already being used across the world to make plants tougher and cheaper. Similarly, in this unconventional experiment, scientists will make tiny, precise changes to the DNA of the seedlings to make the cocoa crops survive in warmer and drier climates.

51. What do people believe chocolates can do?

P2	对生活之利	First and foremost, it makes online shopping and daily life far more convenient...

P5	总结展望	In conclusion, with better services and greener packaging, it will benefit us more...

第四步 逐句写成文

Dear sir or madam,

The express delivery industry in China has grown rapidly in recent years and has changed our lives greatly.

First and foremost, it makes online shopping and daily life much more convenient: goods ordered at night can arrive the next morning, and even people in small towns can enjoy fast delivery.

In addition, the industry has created millions of jobs and helped farmers sell their products to cities, which improves people's income.

However, we should not ignore its problems, such as too much plastic packaging and occasional delays, so companies and customers alike need to work together for a greener and more efficient service.

In conclusion, if the express delivery industry keeps improving its service and becomes more environmentally friendly, it will continue to bring great benefits to our lives.

Yours sincerely,

Li Ming
