阅读专项 | 目标 248.5 稳拿 170+ | 不含听力（听力用音频另练）

一、阅读题型总览与通用解题方法

1. 三大题型考点与分值

题型	题量/分值	考什么	答题顺序
A 选词填空	10题 / 35.5分	词性判断+词义+固定搭配	最后做
B 段落匹配	10题 / 71分	关键词定位+同义替换	先做
C 仔细阅读	10题 / 142分	细节/推断/主旨/词义+同义替换	其次做

建议 40 分钟内：B 约10min → C 约22min → A 约8min。

2. 干扰项四大套路

① 偷换概念（选项改换主体/对象） ② 无中生有（原文没提的信息） ③ 绝对化（only/all/never/always 慎选） ④ 过度推断（“可能”被说成“必然”）

3. 通用技巧口诀

选词填空：先判词性→看搭配→已用划掉。

段落匹配：题干划实词→回段扫→人名/数字秒定位→同义替换。

仔细阅读：读题干划名词→定位那一两句→答案=同义替换，排除看套路。

4. 读不懂是单词还是语法？

表现	诊断	主攻
一句≥2-3个生词就读不懂	单词（主因）	先背词
词都认识仍抓不住结构	语法（次因）	练主干→修饰拆句
都懂却选错	技巧	回看本题精讲

5. 高频同义替换规律库

规律	实例
同根词性互换	correlates↔correlation；worsen↔gets worse
近义词	delay↔postpone；advice↔recommendations
短语↔单词	has not yet settled↔not concluded；made use of↔used
抽象↔具体	blood flow↔supplied with blood
主被动/否定/指代	被动态还原、双否、还原 this/they

二、真题题路精讲（逐题）

1. 选词填空（Q26-35）

原文中每个空号后面附一个小手写框：先标注你判断的词性（n. / v. / adj. / adv. 等），再在下方做选词。

The human brain has the ability to constantly form new networks and connections between brain cells. This means the brain has an almost magical ability to change. This characteristic is 26 apparent in a new study, focusing on people who underwent a hemispherectomy, a surgical procedure in which half of the brain is removed to treat illness.

The findings showed that, despite missing half of this critical 27 , participants could function well. This was because the 28 half of their brain strengthened. In fact, researchers found that connections — and thus communication — between parts of different brain networks are actually stronger in people who had hemispherectomies than in people with intact brains. This 29 that the brain is able to compensate for loss of certain brain structure.

There are many other cases in the medical 30 that document the brain's amazing ability to 31 . For example, a young boy had a significant portion of his brain removed for medical reasons, which included the part of the brain 32 for sight. But a few years after his surgery, scientists found that he could 33 see. They determined that this was because other parts of his brain took over the missing part's 34 tasks. Another study involved people who could smell, despite missing the region in the brain that processes information about smells. Though they are not sure how these individuals 35 the ability to smell, scientists believe it is possible that another part of the brain took on that task.

 匹配题“画关键词”原则 (先看这里)

1. 先题干、后原文：

逐条读 10 个陈述句，在题干上划词，不要先通读文章。

2. 优先划定位性最强的词：

专有名词（人名/机构/地名）、数字/年代/百分比、大写与引号词——唯一性强，回文秒定位。

3. 其次划：

名词/名词短语（找“话题”）、动词/形容词（态度与变化）、限定词（only/all/most/first/never...，常是题眼）。

4. 少而精：

每条划 2-4 个实词；不划 the/of/and 等虚词，也不划 people/study/author/passage 等通用词。

5. 预判改写：

数字/专名少变；普通词易同义替换（purchase→buy；due to→because of），划词时就想“它会长什么样”。

6. 复核：

一段可对应多题；定位后必须确认“题干 ⇌ 原句”构成同义替换，避免只碰上一个词就选。

3. 仔细阅读 Passage One（Q46-50，外在美 vs 内在美）

Our society places a high value on physical beauty. Americans spend an average of over \$722 each year on their appearance. One in ten Americans has tried to look like a star.

There's nothing wrong with trying to look our best, but excessive focus on physical appearance misses the soulful aspects of what it means to be beautiful. Trying to look like the magazine pictures can take us on a long ride away from what beauty is really about.

Many of us spend far too much time, energy, and money trying to polish an image of what we think will bring attention, love, and connection. In the process, we may fail to attend to ourselves in a way that would move us toward deeper intimacy, fulfillment, and meaning.

It may sound trite (老生常谈的), but beauty is only skin deep; it's not what brings love toward us. Just read about the latest Hollywood starlets whose seeming love turns into resentment and bitter court battles.

Outer beauty can be as much of a curse as a blessing. We may develop a habit of being so focused on maintaining a perfect appearance that we never cultivate the inner qualities necessary to sustain and deepen intimacy and connection. As I describe in my book, *The Authentic Heart*, it is the courage to be authentic that connects us in a deeper way.

While our initial attraction may be based, in part, on physical chemistry, it is the meeting of our inner worlds that creates the lasting intimacy and spiritual connection for which we long. If we redirect our attention toward cultivating inner qualities, we might find a magnetic attraction that moves us from something superficial to something that connects us to our depths.

The path toward cultivating inner beauty is really simple. But what is simple is not always easy. Not everyone will see us and appreciate us as we take the courageous risk to allow ourselves to be seen as we really are. But if they don't, it is their loss, not ours. Eventually we'll find those compatible souls who appreciate us as we are.

46. What do we learn about American society from the first paragraph?

- It sees lots of personal income wasted on beauty products.
- It considers one's physical appearance very important.
- It places a high value on the physical fitness of stars.
- It expects every individual to look their very best.

4. 仔细阅读 Passage Two (Q51-55, 植物基人造肉)

Plant-based meats are coming soon to a dinner table near you, but do they deserve a spot on your plate? If you tried a vegetable burger years ago and dismissed it as rubbery and flavorless. It's a good time to give meatless meat another chance. Newer varieties imitate the look, flavor, and texture of meat. Analysts don't expect the meat-free movement to slow anytime soon; a 2021 report predicts the market will skyrocket to \$74 billion by 2030 — a 957 percent surge.

Plant-based meats are no longer just for vegetarians. Companies such as Impossible Foods and Beyond Meat — the current superstars of the alternative protein sector — are pursuing consumers who enjoy meat but want to reduce their meat consumption for animal rights, health, or environmental reasons. So far, it's a winning strategy: More than nine out of ten consumers who buy Beyond Burger and Impossible Foods products also eat meat.

Many vegetarians don't actually care for food that resembles meat. When reporter Joan Solsman, a longtime vegetarian, tried a dish from Impossible Foods, she felt so sick that she couldn't finish it. "Maybe the best sign that Impossible Foods has cracked the code to realistic fake meat is that I couldn't stand to take another bite," she wrote.

Meatless meats are generally a healthier choice than beef because they are cholesterol-free, plus they're a good source of vitamins, minerals, protein, and fiber.

If meatless meat can help you stick to a plant-based diet, that in itself can lead to better health. Not only has red meat been linked to cancer, but studies show that people who ditch meat have lower blood pressure, lower average blood sugar, and lower cholesterol levels.

However, just because it's plant-based doesn't mean it's health food. Most imitation meats are highly processed and contain high amounts of sodium (钠) compared to traditional beef.

These new generations of alternate meat get all the attention, but don't forget about whole grains and vegetables. Beans are an especially excellent protein substitute. They're nutritious, inexpensive, and far more sustainable than any of the processed meatless substitutes on the market today.

51. What can we expect of plant-based meats?

- An increasing interest in their analyses.
- An enormous effort in their promotion.
- A huge boost in their consumption.
- A noticeable surge in their varieties.

写作手把手：五步法 + 完整范文

题目：Suppose your university is conducting a survey to collect students' opinions on the appropriate use of AI technology in assisting learning. You are now to write an essay to express your view. （120-180词）

第一步 审题(2min)

观点型议论文：主题=AI辅助学习的“恰当使用”；需既肯定价值又点明边界，观点鲜明。

第二步 头脑风暴(3min)

方面	内容	作用
好处	答疑、改作文、个性化练习	高效省时
边界	不可代写/抄袭、过度依赖	保证独立思考
引导	学校开课/教师指导/诚信约定	用得其所

第三步 列提纲(3min)：五段骨架

段	功能	模板句
P1	亮观点	In my view, AI can greatly help our learning if it is used properly.
P2	好处① 学习工具	First and foremost, AI tools like ChatGPT can explain difficult points...
P3	好处② 练习反馈	In addition, AI offers us instant feedback... helping us improve faster.

段	功能	模板句
P4	边界·须适度	However, we should never depend on AI to write essays for us...
P5	总结	In conclusion, the key is to use AI as an assistant, not a substitute...

第四步 逐句写成文

Dear sir or madam,

In my view, AI technology can greatly help our learning if it is used properly.

First and foremost, AI tools such as ChatGPT can explain difficult concepts clearly and provide plenty of practice materials, which saves us much time and energy.

In addition, AI offers instant feedback on our writing and speaking, so we can find and correct our mistakes quickly and improve step by step.

However, we should never rely on AI to finish homework or write essays for us, because that weakens our ability to think independently and even becomes a kind of cheating.

In conclusion, I believe the appropriate use of AI means treating it as an assistant rather than a substitute, so that we can study in a smarter but still honest way.

Yours sincerely,

Li Ming

第五步 检查

词数120-180；观点是否含“恰当/边界”；衔接词 First and foremost / In addition / However / In conclusion。
