阅读专项 | 目标 248.5 稳拿 170+ | 不含听力（听力用音频另练）

一、阅读题型总览与通用解题方法

1. 三大题型考点与分值

题型	题量/分值	考什么	答题顺序
A 选词填空	10题 / 35.5分	词性判断+词义+固定搭配	最后做
B 段落匹配	10题 / 71分	关键词定位+同义替换	先做
C 仔细阅读	10题 / 142分	细节/推断/主旨/词义+同义替换	其次做

建议 40 分钟内：B 约10min → C 约22min → A 约8min。

2. 干扰项四大套路

① 偷换概念（选项改换主体/对象） ② 无中生有（原文没提的信息） ③ 绝对化（only/all/never/always 慎选） ④ 过度推断（“可能”被说成“必然”）

3. 通用技巧口诀

选词填空：先判词性→看搭配→已用划掉。

段落匹配：题干划实词→回段扫→人名/数字秒定位→同义替换。

仔细阅读：读题干划名词→定位那一两句→答案=同义替换，排除看套路。

4. 读不懂是单词还是语法？

表现	诊断	主攻
一句≥2-3个生词就读不懂	单词（主因）	先背词
词都认识仍抓不住结构	语法（次因）	练主干→修饰拆句
都懂却选错	技巧	回看本题精讲

5. 高频同义替换规律库

规律	实例
同根词性互换	correlates↔correlation; worsen↔gets worse
近义词	delay↔postpone; advice↔recommendations
短语↔单词	has not yet settled↔not concluded; made use of↔used
抽象↔具体	blood flow↔supplied with blood
主被动/否定/指代	被动态还原、双否、还原 this/they

二、真题题路精讲（逐题）

1. 选词填空（Q26-35）

原文中每个空号后面附一个小手写框：先标注你判断的词性（n. / v. / adj. / adv. 等），再在下方做选词。

People tend to want as many choices as possible. They believe this will maximize their 26 of making the best decision. But research shows that, when it comes to actually making a 27 from all of these choices, people can become 28 and avoid making a decision altogether. Even worse, when people finally do decide, they are generally less satisfied with their decision and feel more regretful over whatever choice they made. Why does this happen? Research shows that when people choose from many options, they 29 more in the decision, but feel less confident in their ability to decide well. In other words, when we are 30 with more choices, making the “right” or “correct” decision begins to feel more 31

and, at the same time, more difficult to do. This may contribute to the deep fear that we will make the wrong decision.

How can we solve this problem? I believe this fear could be tempered by putting decisions into perspective. It might help to remember that many of the choices you make, such as what to have for lunch, will not 32 much in the future and that, even more important choices, like accepting a new job, can 33 be changed. It could also help to 34 these situations with clear guidelines and ideas of what you want from the 35 of options, which can narrow the possible choices, and also make you more confident about your ability to make the right decision.

2. 段落匹配 (Q36-45)· 原文 A–P

 匹配题“画关键词”原则（先看这里）

1. 先题干、后原文：逐条读 10 个陈述句，在题干上划词，不要先通读文章。

2. 优先划定位性最强的词：专有名词（人名/机构/地名）、数字/年代/百分比、大写与引号词——唯一性强，回文秒定位。

3. 其次划：名词/名词短语（找“话题”）、动词/形容词（态度与变化）、限定词（only/all/most/first/never...，常是题眼）。

4. 少而精：每条划 2–4 个实词；不划 the/of/and 等虚词，也不划 people/study/author/passage 等通用词。

5. 预判改写：数字/专名少变；普通词易同义替换（purchase→buy；due to→because of），划词时就想“它会长什么样”。

6. 复核：一段可对应多题；定位后必须确认“题干 ⇔ 原句”构成同义替换，避免只碰上一个词就选。

3. 仔细阅读 Passage One（Q46-50，用药时间与人体节律）

All living organisms on Earth are exposed to a 24-hour day-night cycle. This cycle is the reason why people rest at night and are active during the day. Consequently, all human body functions also follow this daily rhythm, and the timing of behaviors like exercise or food intake can significantly influence your health. For example, eating at night can lead to weight gain over time because food intake at night leads to increased fat storage.

Many drug targets in the body follow a 24-hour cycle, too. This means that the specific proteins a drug is designed to modify can react differently to the medicine over the course of a 24-hour time period. Because how the body responds to a drug can differ depending on the time it is taken, it logically follows that taking medicines at specific times could help increase their effectiveness and reduce unwanted side effects.

When doctors prescribe medicine for people, they rarely consider the best time to take it. There are two main reasons for that oversight. First, many physicians are not aware that some drugs work better during a specific time of the day. And second, most drugs have not been studied for possible different effects during a 24-hour cycle. Therefore, patients are directed to take most drugs during the morning or evening primarily to ensure compliance.

Over 50 years ago, researchers found that the cholesterol drug simvastatin is more effective at lowering cholesterol levels when taken at night rather than during the day. This is because the liver enzyme (酶) these drugs target is more active at night.

Taking medicine at the wrong time can even cause harm. My colleagues and I wondered whether midazolam, the most common sedative (镇静剂) used in surgical procedures worldwide, might interfere with the internal clock that protects the heart at night. Currently, there are no guidelines regarding when midazolam should be administered.

More research is needed to determine the best times to administer treatments for different diseases. I believe taking drug timing into account could help make treatments more effective and help more people worldwide.

46. What do we learn from the passage about the timing of our behaviors?

- It has a considerable impact on our health.
- It confines us to a 24-hour day-night cycle.
- It requires us to follow a particular rhythm.
- It holds the key to all human body functions.

4. 仔细阅读 Passage Two (Q51-55, 退休推迟：想工作还是需要钱)

Katharine Abraham, an economics professor, was chatting with her hairdresser (理发师) about retirement plans. The economist said she plans to continue working because she wants to. The hairdresser agreed but for a different reason: She needs the money.

Both scenarios (情况) are contributing to a big increase in the number of people in the U.S. working into their 70s. Over the past 20 years, the share of Americans working in their 70s has risen from less than 10% to nearly 15%.

In addition to people being healthier and living much longer, economists say that a combination of financial considerations such as years of slow rise in real wages and a shift away from traditional pensions in the private sector are some of the reasons people delay retirement. The decline of manufacturing and the increase in the number of people working in less labor-intensive occupations also has contributed to the trend, says Abraham, who researches work and retirement decisions of older Americans.

“Which matters more depends on what your history up until that point has been in the type of work you’re doing,” Abraham says.

The overall trend is hitting Americans of all different levels of educational attainment, although the percentages vary by category. The share of Americans with bachelor’s degrees who were working into their 70s reached nearly 20% in 2018. For those with a high school degree or less, the proportion of those working in their 70s had risen to around 10%, while those with some college education were in the middle at around 15%.

Martin Neil Bailly, an economist who is leading a research project on retirement security, notes that quitting a career can lead to feelings of isolation and loneliness, particularly for men. He suggests that many college-educated workers are choosing to stay in the labor force more for social benefits than for financial reasons. They’re also more likely to be in professional occupations where they tend to enjoy their work more.

Workers in more physical jobs, meanwhile, may be more likely to look forward to retiring, Bailly says, suggesting those who stay on are more likely doing so for financial reasons.

51. What do we learn from the passage about the economics professor and her hairdresser?

- They differ in their reasons for continuing to work.
- They are both committed to working into their 70s.
- They are happy about their current financial situation.
- They hold different views about postponing retirement.

Dear student union,

I would like to make several suggestions on how the student union can better enrich our campus life.

First and foremost, the union could organize more regular cultural and arts events, such as concerts, exhibitions and film nights, so that students can relax and make new friends.

In addition, it would be helpful to set up more interest-based clubs and societies, which give every student a chance to develop hobbies and teamwork skills.

What's more, the union could launch fitness and mental-health weeks, offering sports activities and counseling talks to support students' wellbeing.

I sincerely hope these suggestions will be considered, so that our campus life will become more colorful and meaningful for everyone.

Yours sincerely,

Li Ming
