分值分布与时间分配（考研英语一 满分100）

板块	题量	每题	分值	占比	建议用时
完形 Use of English	20	0.5	10	10%	15min
阅读 Part A（4篇）	20	2	40	40%	60min
Part B 新题型	5	2	10	10%	15min
Part C 英译中	5	2	10	10%	20min
写作 Part A 小作文	1	—	10	10%	15min
写作 Part B 大作文	1	—	20	20%	35min

阅读（Part A+B）合计 50 分=半壁江山；写作 30 分；完形+翻译 20 分。先做阅读与写作，完形最后做。

Section I · 完形填空（Use of English 1–20）

每空 4 选项；先看搭配与词性，再据上下文语义，最后复核。

The idea that plants have some degree of consciousness first took root in the early 2000s; the term “plant neurobiology” was **[1]** around the notion that some aspects of plant behavior could be **[2]** to intelligence in animals. **[3]** plants lack brains, the firing of electrical signals in their stems and leaves nonetheless triggered responses that **[4]** consciousness, researchers previously reported.

But such an idea is untrue, according to a new opinion article. Plant biology is complex and fascinating, but it **[5]** so greatly from that of animals that so-called **[6]** of plants’ intelligence is inconclusive, the authors wrote.

Beginning in 2006, some scientists have **[7]** that plants possess neuron-like cells that interact with hormones and neurotransmitters, **[8]** “a plant nervous system, **[9]** to that in animals,” said lead study author Lincoln Taiz. “They **[10]** claimed that plants have ‘brain-like command centers’ at their root tips.”

This **[11]** makes sense if you simplify the workings of a complex brain, **[12]** it to an array of electrical pulses; cells in plants also communicate through electrical signals. **[13]**, the signaling in a plant is only **[14]** similar to the firing in a complex animal brain, which is more than “a mass of cells that communicate by electricity,” Taiz said.

“For consciousness to evolve, a brain with a threshold **[15]** of complexity and capacity is required,” he **[16]**. “Since plants don’t have nervous systems, the **[17]** that they have consciousness are effectively zero.”

And what’s so great about consciousness, anyway? Plants can’t run away from **[18]**, so investing energy in a body system which **[19]** a threat and can feel pain would be a very **[20]** evolutionary strategy, according to the article.

Section II · Part A Text 1

Text 1（塑料文物的保护）

People often complain that plastics are too durable. Water bottles, shopping bags, and other trash litter the planet, from Mount Everest to the Mariana Trench, because plastics are everywhere and don't break down easily. But some plastic materials change over time. They crack and frizzle. They “weep” out additives. They melt into sludge. All of which creates huge headaches for institutions, such as museums, trying to preserve culturally important objects. The variety of plastic objects at risk is dizzying: early radios, avant-garde sculptures, celluloid animation stills from Disney films, the first artificial heart.

Certain artifacts are especially vulnerable because some pioneers in plastic art didn't always know how to mix ingredients properly, says Thea van Oosten, a polymer chemist who, until retiring a few years ago, worked for decades at the Cultural Heritage Agency of the Netherlands. “It's like baking a cake: If you don't have exact amounts, it goes wrong.” she says. “The object you make is already a time bomb.”

And sometimes, it's not the artist's fault. In the 1960s, the Italian artist Piero Gilardi began to create hundreds of bright, colorful foam pieces. Those pieces included small beds of roses and other items as well as a few dozen “nature carpets” — large rectangles decorated with foam pumpkins, cabbages, and watermelons. He wanted viewers to walk around on the carpets — which meant they had to be durable.

Unfortunately, the polyurethane foam he used is inherently unstable. It's especially vulnerable to light damage, and by the mid-1990s, Gilardi's pumpkins, roses, and other figures were splitting and crumbling. Museums locked some of them away in the dark.

So van Oosten and her colleagues worked to preserve Gilardi's sculptures. They infused some with stabilizing and consolidating chemicals. Van Oosten calls those chemicals "sunscreens" because their goal was to prevent further light damage and rebuild worn polymer fibers. She is proud that several sculptures have even gone on display again, albeit sometimes beneath protective cases.

Despite success stories like van Oosten's, preservation of plastics will likely get harder. Old objects continue to deteriorate. Worse, biodegradable plastics designed to disintegrate, are increasingly common.

And more is at stake here than individual objects. Joana Lia Ferreira, an assistant professor of conservation and restoration at the NOVA School of Science and Technology, notes that archaeologists first defined the great material ages of human history — Stone Age, Iron Age, and so on — after examining artifacts in museums. We now live in an age of plastic, she says, "and what we decide to collect today, what we decide to preserve...will have a strong impact on how in the future we'll be seen."

21. According to Paragraph 1, museums are faced with difficulties in ____

- maintaining their plastic items.
- obtaining durable plastic artifacts.
- handling outdated plastic exhibits.
- classifying their plastic collections.

Section II · Part A Text 2

Text 2 (学位的价值)

As the latest crop of students pen their undergraduate application form and weigh up their options, it may be worth considering just how the point, purpose and value of a degree has changed and what Generation Z need to consider as they start the third stage of their educational journey.

Millennials were told that if you did well in school, got a decent degree, you would be set up for life. But that promise has been found wanting. As degrees became universal, they became devalued. Education was no longer a secure route of social mobility. Today, 28 percent of graduates in the UK are in non-graduate roles, a percentage which is double the average among OECD countries.

This is not to say that there is no point in getting a degree, but rather stress that a degree is not for everyone, that the switch from classroom to lecture hall is not an inevitable one and that other options are available.

Thankfully, there are signs that this is already happening, with Generation Z seeking to learn from their millennial predecessors, even if parents and teachers tend to be still set in the degree mindset. Employers have long seen the advantages of hiring school leavers who often prove themselves to be more committed and loyal employees than graduates. Many too are seeing the advantages of scrapping a degree requirement for certain roles.

For those for whom a degree is the desired route, consider that this may well be the first of many. In this age of generalists, it pays to have specific knowledge or skills. Postgraduates now earn 40 percent more than graduates. When more and more of us have a degree, it makes sense to have two.

It is unlikely that Generation Z will be done with education at 18 or 21: they will need to be constantly upskilling throughout their career to stay employable. It has been estimated that this generation, due to the pressures of technology, the wish for personal fulfillment and desire for diversity will work for 17 different employers over the course of their working life and have five different careers. Education, and not just knowledge gained on campus, will be a core part of Generation Z's career trajectory.

Older generations often talk about their degree in the present and personal tense: 'I am a geographer' or 'I am a classicist'. Their sons or daughters would never say such a thing; it's as if they already know that their degree won't define them in the same way.

26. The author suggests that Generation Z should ____

be careful in choosing a college.

be diligent at each educational stage.

reassess the necessity of college education.

postpone their undergraduate application.

作答区 (手写答案字母):

选择答案:

答案 · 查看题路精讲

27. The percentage of UK graduates in non-graduate roles reflects ____

Millennials' opinions about work.

the shrinking value of a degree.

public discontent with education.

the desired route of social mobility.

Section II · Part A Text 3

Text 3 (艺术与科学合作)

Enlightening, challenging, stimulating, fun. These were some of the words that Nature readers used to describe their experience of art-science collaborations in a series of articles on partnerships between artists and researchers. Nearly 40% of the roughly 350 people who responded to an accompanying poll said they had collaborated with artists; and almost all said they would consider doing so in future.

Such an encouraging result is not surprising. Scientists are increasingly seeking out visual artists to help them to communicate their work to new audiences. "Artists help scientists reach a broader audience and make emotional connections that enhance learning." One respondent said.

One example of how artists and scientists have together rocked the senses came last month when the Sydney Symphony Orchestra performed a reworked version of Antonio Vivaldi's The Four Seasons. They reimagined the 300-year-old score by injecting the latest climate prediction data for each season — provided by Monash University's Climate Change Communication Research Hub. The performance was a creative call to action ahead of November's United Nations Climate Change Conference in Glasgow, UK.

But a genuine partnership must be a two-way street. Fewer artists than scientists responded to the Nature poll; however, several respondents noted that artists do not simply assist scientists with their communication requirements. Nor should their work be considered only as an object of study. The alliances

are most valuable when scientists and artists have a shared stake in a project, are able to jointly design it and can critique each other's work. Such an approach can both prompt new research as well as result in powerful art.

More than half a century ago, the Massachusetts Institute of Technology opened its Center for Advanced Visual Studies (CAVS) to explore the role of technology in culture. The founders deliberately focused their projects around light — hence the “visual studies” in the name. Light was something that both artists and scientists had an interest in, and therefore could form the basis of collaboration. As science and technology progressed, and divided into more sub-disciplines, the centre was simultaneously looking to a time when leading researchers could also be artists, writers and poets, and vice versa.

Nature's poll findings suggest that this trend is as strong as ever, but, to make a collaboration work, both sides need to invest time and embrace surprise and challenge. The reach of art-science tie-ups needs to go beyond the necessary purpose of research communication, and participants must not fall into the trap of stereotyping each other. Artists and scientists alike are immersed in discovery and invention, and challenge and critique are core to both, too.

31. According to Paragraph 1, art-science collaborations have ____
- caught the attention of critics.
 - received favorable responses.
 - promoted academic publishing.
 - sparked heated public disputes.

作答区（手写答案字母）：

选择答案：

Section II · Part A Text 4

Text 4 (新西兰雇佣关系法)

The personal grievance provisions of New Zealand's Employment Relations Act 2000 (ERA) prevent an employer from firing an employee without good cause. Instead, dismissals must be justified. Employers must both show cause and act in a procedurally fair way.

Personal grievance procedures were designed to guard the jobs of ordinary workers from "unjustified dismissals". The premise was that the common law of contract lacked sufficient safeguards for workers against arbitrary conduct by management. Long gone are the days when a boss could simply give an employee contractual notice.

But these provisions create difficulties for businesses when applied to highly paid managers and executives. As countless boards and business owners will attest, constraining firms from firing poorly performing, high-earning managers is a handbrake on boosting productivity and overall performance. The difference between C-grade and A-grade managers may very well be the difference between business success or failure. Between preserving the jobs of ordinary workers or losing them. Yet mediocrity is no longer enough to justify a dismissal.

Consequently — and paradoxically — laws introduced to protect the jobs of ordinary workers may be placing those jobs at risk.

If not placing jobs at risk, to the extent employment protection laws constrain business owners from dismissing under-performing managers, those laws act as a constraint on firm productivity and therefore on workers' wages. Indeed, in "An International Perspective on New Zealand's Productivity Paradox" (2014), the Productivity Commission singled out the low quality of managerial capabilities as a cause of the country's poor productivity growth record.

Nor are highly paid managers themselves immune from the harm caused by the ERA's unjustified dismissal procedures. Because employment protection laws make it costlier to fire an employee, employers are more cautious about hiring new staff. This makes it harder for the marginal manager to gain employment. And firms pay staff less because firms carry the burden of the employment arrangement going wrong.

Society also suffers from excessive employment protections. Stringent job dismissal regulations adversely affect productivity growth and hamper both prosperity and overall well-being.

Across the Tasman, Australia deals with the unjustified dismissal paradox by excluding employees earning above a specified "high-income threshold" from the protection of its unfair dismissal laws. In New Zealand, a 2016 private members' Bill tried to permit firms and high-income employees to contract out of the unjustified dismissal regime. However, the mechanisms proposed were unwieldy and the Bill was voted down following the change in government later that year.

36. The personal grievance provisions of the ERA are intended to ____

- punish dubious corporate practices.
- improve traditional hiring procedures.
- exempt employers from certain duties.
- protect the rights of ordinary workers.

作答区 (手写答案字母):

选择答案:

答案 · 查看题路精讲

37. It can be learned from Paragraph 3 that the provisions may ____

- hinder business development.
- undermine managers' authority.
- affect the public image of the firms.
- worsen labor-management relations.

51. 被否决	

Section II · Part B 新题型（41–45 选小标题）

下面有五位人士（41–45）对动物园的看法，请从 A–G 中为每人选出最恰当的描述（有两项多余）。

📌 41–45 解题方法与技巧（小标题题·先看这里）

- 先读标题：**把 A–G 七个标题的中文意思先弄清，划出各自的关键词（如 friendly / biological / aggressive / brief / personality）。
- 抓段落主题句：**多数段落首句或首两句即主题句；例子（如研究者、实验）是支撑，不选标题。
- 关键词复现：**标题中的词在段落里必有同义/近义复现（oxytocin→biological；neuroticism→personality；three per second→brief）。
- 警惕干扰项：**多余的两项往往“沾边但错位”，如 B、F 都讲“不适/不礼貌”，而段落并未强调。
- 先易后难：**把最明显的段落先定，再排除法处理剩下的。
- 复核：**把标题与段落连读，确认概括的是整段而非某一句。

备选标题（A–G，其中两项多余）

- A.** Zoos which spare no effort to take care of animals should not be subjected to unfair criticism.
- B.** To pressure zoos to spend less on their animals would lead to inhumane outcomes for the precious creatures in their care.
- C.** While animals in captivity deserve sympathy, zoos play a significant role in starting young people down the path of related sciences.
- D.** Zoos save people trips to wilderness areas and thus contribute to wildlife conservation.
- E.** For wild animals that cannot be returned to their natural habitats, zoos offer the best alternative.
- F.** Zoos should have been closed down as they prioritize money making over animals' wellbeing.
- G.** Marris distorts our findings which actually prove that zoos serve as an indispensable link between man and nature.

41. Teri Byrd

I am a zoo and wildlife park employee for years. Both the wildlife park and zoo claimed to be operating for the benefit of the animals and for conservation purposes. This claim was false. Neither one of them actually participated in any contributions to animal research or conservation. They are profitable institutions whose bottom line is much more important than the condition of the animals. Animals despise being captives in zoos. No matter how you “enhance” enclosures, they do not allow for freedom, a natural diet or adequate exercise. It's past time for transparency with these institutions, and it's past time to eliminate zoos from our culture.

选择标题：

41 · 查看思路

42. Karen R. Sime

As a zoology professor, I agree with Emma Marris that zoo displays can be sad and cruel. But she underestimates the educational value of zoos. The zoology program at my university attracts students for whom zoo visits were the crucial formative experience that led them to major in biological sciences. These are mostly students who had no opportunity as children to travel to wilderness areas, wildlife refuges or national parks. Although good TV shows can help stir children's interest in conservation, they cannot replace the excitement of a zoo visit as an intense, immersive and interactive experience. Surely there must be some middle ground that balances zoos' treatment of animals with their educational potential.

选择标题：

42 · 查看思路

43. Greg Newberry

Emma Marris's article is an insult and a disservice to the thousands of passionate people who work tirelessly to improve the lives of animals and protect our planet. She uses outdated research and decades-old examples to undermine the noble mission of organizations committed to connecting children to a world beyond their own. Zoos are at the forefront of conservation and constantly evolving to improve how they care for animals and protect each species in its natural habitat. Are there tragedies? Of course. But they are the exception, not the norm that Ms. Marris implies. A distressed animal in a zoo will get as good or better treatment than most of us at our local hospital.

选择标题：

43 · 查看思路

44. Dean Gallea

As a fellow environmentalist, animal-protection advocate and longtime vegetarian, I could properly be in the same camp as Emma Marris on the issue of zoos. But I believe that well-run zoos, and the heroic animals that suffer their captivity, do serve a higher purpose. Were it not for opportunities to observe these beautiful, wild creatures close to home, many more people would be driven by their fascination to travel to wild areas to seek out, disturb and even hunt them down. Zoos are, in that sense, similar to natural history and archaeology museums, serving to satisfy our need for contact with these living creatures while leaving the vast majority undisturbed in their natural environments.

选择标题：

44 · 查看思路

45. John Fraser

Emma Marris selectively describes and misrepresents the findings of our research. Our studies focused on the impact of zoo experiences on how people think about themselves and nature, and the data points extracted from our studies do not, in any way, discount what is learned in a zoo visit. Zoos are tools for thinking. Our research provides strong support for the value of zoos in connecting people with animals and with nature. Zoos provide a critical voice for conservation and environmental protection. They afford an opportunity for people from all backgrounds to encounter a range of animals, from drone bees to springbok or salmon, to better understand the natural world we live in.

Section II · Part C 英译中 (46–50)

先自己翻译划线句，再点“显示答案”对照；注意定语从句、非谓语与语序调整。

原文全文（划线句为 46–50，未省略）

Between 1807 and 1814 the Iberian Peninsula (comprising Spain and Portugal) was the scene of a titanic and merciless struggle. It took place on many different planes: between Napoleon's French army and the angry inhabitants; between the British, ever keen to exacerbate the emperor's difficulties, and the marshals sent from Paris to try to keep them in check; between new forces of science and meritocracy and old ones of conservatism and birth. **(46) It was also, and this is unknown even to many people well read about the period, a battle between those who made codes and those who broke them.** I first discovered the Napoleonic cryptographic battle a few years ago when I was reading Sir Charles Oman's epic History of the Peninsular War. In volume V he had attached an appendix, "The Scovell Ciphers". **(47) It listed many documents in code that had been captured from the French army of Spain, and whose secrets had been revealed by the work of one George Scovell, an officer in British headquarters.** Oman rated Scovell's significance highly, but at the same time, the general nature of his History meant that **(48) he could not analyze carefully what this obscure officer may or may not have contributed to that great struggle between nations or indeed tell us anything much about the man himself.** I was keen to read more, but was surprised to find that Oman's appendix, published in 1914, was the only considered thing that had been written about this secret war. I became convinced that this story was every bit as exciting and significant as that of Enigma and the breaking of German codes in the Second World War. The question was, could it be told? Studying Scovell's papers at the Public Record Office, London, I found that he had left an extensive journal and copious notes about his work in the Peninsula. What was more, many original French dispatches had been preserved in this collection, which I realized was priceless. **(49) There may have been many spies and intelligence officers during the Napoleonic Wars, but it is usually extremely difficult to find the material they actually provided or worked on.** As I researched Scovell's story I found far more of interest besides his intelligence work. His status in Lord Wellington's headquarters and the recognition given to him for his work were all bound up with the class politics of the army at the time. His tale of self-improvement and hard work would make a fascinating biography in its own right, but represents something more than that. **(50) Just as the code breaking has its wider relevance in the struggle for Spain, so his attempts to make his way up the promotion ladder speak volumes about British society.**

46. It was also, and this is unknown even to many people well read about the period, a battle between those who made codes and those who broke them.

答案

47. It listed many documents in code that had been captured from the French army of Spain, and whose secrets had been revealed by the work of one George Scovell, an officer in British headquarters.

答案

48. he could not analyze carefully what this obscure officer may or may not have contributed to that great struggle between nations or indeed tell us anything much about the man himself.

答案

49. There may have been many spies and intelligence officers during the Napoleonic Wars, but it is usually extremely difficult to find the material they actually provided or worked on.

答案

50. Just as the code breaking has its wider relevance in the struggle for Spain, so his attempts to make his way up the promotion ladder speak volumes about British society.

答案

Section III · Writing 写作手把手（51–52）

Part A 小作文（应用文·约100词）

题目：Write an e-mail to a professor at a British university, inviting him/her to organize a team for an international innovation contest to be held at your university.

第一步 审题

文体：书信/邮件（回信）；对象：同学 Paul（语气友好）；要点：①感谢/回应 ②介绍手艺人将展示什么 ③说明他能帮什么忙。

第二步 头脑风暴

要点	可写内容	作用
回应	Glad you are interested...	承接来信
展示内容	paper-cuts, clay figures, skills behind them	满足提问
协助	book tables, print posters, guide guests	给出任务

第三步 列提纲（应用文格式）

部分	功能	模板句
称呼	Dear Paul,	Dear Paul,
P1	回应+感谢	I'm glad you're interested in the craftsmen's visit.
P2	说明展示内容	They will show how to make traditional paper-cuts and clay figures...
P3	说明协助事项	As for the preparation, could you help me book two tables and print the posters?
结尾/署名	感谢+署名	Thank you so much for your help. / Yours, Li Ming

第四步 逐句写成文（范文）

Dear Professor Smith,

On behalf of my university, I am writing to invite you to organize a team to take part in an international innovation contest to be held at our university in October.

The contest aims to encourage students from different countries to work together and turn creative ideas into practical projects. Your team may choose any topic related to technology or environmental protection. We will cover the accommodation and provide all necessary facilities.

I would be grateful if you could let me know your decision by the end of this month. I am looking forward to your reply.

Yours sincerely,

Li Ming

第五步 检查

约100词；称呼与署名格式正确；是否回答 Paul 的两个问题；语气礼貌；不用真实姓名（用 Li Ming）。

 分步手写默写（每一步一块：先写，再点“显示答案”对照）

称呼 + 回应（P1）

模板：Dear Paul, / I'm glad you're interested in the craftsmen's visit.

答案

说明展示内容（P2）

模板：They will show how to make traditional paper-cuts and clay figures...

答案

说明协助事项（P3）

模板：As for the preparation, could you help me book two tables and print the posters?

答案

结尾 + 署名

模板：Thank you so much for your help. / Yours, Li Ming

答案

Part B 大作文（图表作文 · 160–200词）

题目：Write an essay of 160–200 words based on the pictures below. 1) describe the pictures; 2) interpret the implied meaning; 3) give your comments. 图中校园里张贴着“校园讲座”的海报，一位同学对同伴说：“去听一下，肯定有好处。”

原题表格（据此作文）

图	内容	含义
图	校园里张贴“校园讲座”海报	大学提供丰富的学习资源
图	同学劝同伴“去听一下，肯定有好处”	应主动利用资源、拓宽视野

图画主题：主动学习/善用校园资源

第一步 审题

图表类型：数据表（每百户耐用消费品拥有量 2014–2023）；任务：①描述数据 ②解释含义 ③给出评论；三段式。

第二步 头脑风暴

角度	可写内容	作用
描述	air conditioners 75.2→145.9; washing machines 83.7→98.2; refrigerators 85.5→103.4	数据准确
原因	rising incomes; upgrading of consumption; better living standards	解释趋势
评论	consume responsibly; energy-saving; recycle old appliances	观点升华

第三步 列提纲（三段式）

段	功能	模板句
P1	描述图画	The picture shows a poster for a campus lecture, and a student urges his classmate to attend.
P2	解读含义	The picture tells us that students should actively make use of the resources on campus.
P3	评论建议	Attending lectures broadens our horizons and should be encouraged.

第四步 逐句写成文（范文）

As is shown in the picture, a poster for a campus lecture is put up on the campus, and a student is telling his classmate, "Let's go and listen. It will surely do us good."

The picture conveys a clear message: college students should take the initiative to make use of the rich resources on campus. Lectures given by experts offer us new knowledge and different ways of thinking, which can broaden our horizons and inspire our creativity. Unfortunately, some students spend their free time on games or phones instead of seizing such valuable opportunities.

In my view, we should value every chance to learn beyond the classroom. By attending more lectures and taking part in campus activities, we can enrich our knowledge and improve ourselves. A positive and active attitude towards learning will benefit us for the rest of our lives.

第五步 检查

160–200词；数据引用准确；首段描述、中段解释、末段评论；衔接词（As is shown / Such a trend / In my view）；语法与拼写。

 分步手写默写（每段一块：先写，再点“显示答案”对照）

P1 描述图表

模板：As is shown in the table, the number of major durable consumer goods per 100 households kept rising from 2014 to 2023.

答案

P2 解读含义

模板：Such a trend clearly reflects the improvement of people's living standards and the upgrading of household consumption.

答案

P3 评论建议

模板：In my view, this change is encouraging, but it also reminds us to consume responsibly.

答案

长难句精讲（四步拆句·一目了然）

四步法：① 找主干（几个谓语切几段，先划掉从句/插入语）→ ② 理枝叶（每块修饰谁）→ ③ 排语序（定语前置/长状语拆句）→ ④ 出译文。

1. Though plants lack brains, the firing of electrical signals in their stems and leaves nonetheless triggered responses that hinted at consciousness, researchers previously reported.

- ① 主干The firing of electrical signals triggered responses.（电信号的触发引起了反应。）
- ② 枝叶Though... → 让步状语从句；the firing of... → 动名词短语作主语；that hinted at consciousness → 定语从句修饰 responses；researchers previously reported 为插入/评注。
- ③ 语序让步从句提前；定语从句译“.....的（反应）”；句末评注“研究者此前报告说”前置。
- ④ 译文研究者此前报告说，虽然植物没有大脑，但其茎叶中电信号的触发却引起了暗示着意识的反应。

2. Plant biology is complex and fascinating, but it differs so greatly from that of animals that so-called evidence of plants' intelligence is inconclusive, the authors wrote.

- ① 主干Plant biology is complex and fascinating, but it differs from that of animals.（植物生物学复杂而迷人，但它与动物生物学差异极大。）
- ② 枝叶but 连接并列分句；so...that... → 结果状语从句；that of animals 中 that 代指 plant biology；the authors wrote 为评注。
- ③ 语序so...that 译“如此.....以至于”；评注“作者们写道”前置。
- ④ 译文作者们写道，植物生物学复杂而迷人，但它与动物生物学差异如此之大，以至于所谓植物智力的证据并不充分。

3. This perspective makes sense if you simplify the workings of a complex brain, reducing it to an array of electrical pulses; cells in plants also communicate through electrical signals.

- ① 主干This perspective makes sense.（这一观点说得通。）
- ② 枝叶if you simplify... → 条件状语从句；reducing it to... → 现在分词作结果/补充说明；分号后为并列分句。
- ③ 语序条件从句顺译“如果你.....的话”；分词短语译“把它简化为.....”。
- ④ 译文如果你把复杂大脑的运作简化，把它归结为一系列电脉冲，这一观点就说得通；植物细胞也通过电信号交流。

4. It was also, and this is unknown even to many people well read about the period, a battle between those who made codes and those who broke them.

- ① 主干It was also a battle between those who made codes and those who broke them.（这同时也是一场编制密码者与破译密码者之间的较量。）
- ② 枝叶and this is unknown... → 插入语，补充说明；well read about the period → 形容词短语作后置定语；those who... → 定语从句。
- ③ 语序插入语用破折号译出“这一点连.....都不知道”；两个定语从句译“.....的人”。
- ④ 译文这同时也是一场编制密码者与破译密码者之间的较量——而这一点甚至连许多对该时期颇有研究的人都不知道。

5. It listed many documents in code that had been captured from the French army of Spain, and whose secrets had been revealed by the work of one George Scovell, an officer in British headquarters.

- ① **主干** It listed many documents.（它列出了许多文件。）
- ② **枝叶** in code → 后置定语“密码（文件）”；that had been captured... 与 whose secrets had been revealed... 为并列定语从句；an officer... → 同位语。
- ③ **语序** 定语从句后置顺译，用“这些文件……”衔接；同位语译“一位……的军官”。
- ④ **译文** 它列出了许多从西班牙的法军那里缴获的密码文件，而这些文件的秘密已被一位名叫乔治·斯科维尔的英国司令部军官破解。

6. Oman rated Scovell's significance highly, but at the same time, the general nature of his History meant that he could not analyze carefully what this obscure officer may or may not have contributed to that great struggle.

- ① **主干** Oman rated his significance highly, but the general nature meant that...（奥曼高度评价其重要性，但该书的通论性质意味着……）
- ② **枝叶** but 连接并列分句；meant that... → 宾语从句；what... → 从句作 analyze 的宾语；may or may not have contributed 表推测。
- ③ **语序** 宾语从句顺译；what 从句译“这位默默无闻的军官可能有（或没有）过什么贡献”。
- ④ **译文** 奥曼高度评价斯科维尔的重要性，但与此同时，他这部《历史》的通论性质意味着，他无法仔细分析这位默默无闻的军官对那场伟大斗争可能有（或没有）过什么贡献。

7. Because employment protection laws make it costlier to fire an employee, employers are more cautious about hiring new staff.

- ① **主干** Employers are more cautious about hiring new staff.（雇主在招聘新员工时更加谨慎。）
- ② **枝叶** Because... → 原因状语从句；make it costlier to do → it 作形式宾语，真正宾语为不定式；be cautious about doing。
- ③ **语序** 原因从句提前译“因为……”；it 形式宾语不必译出。
- ④ **译文** 由于雇佣保护法使解雇员工的成本更高，雇主在招聘新员工时就更加谨慎。

8. Just as the code breaking has its wider relevance in the struggle for Spain, so his attempts to make his way up the promotion ladder speak volumes about British society.

- ① **主干** His attempts speak volumes about British society.（他的种种努力充分说明了英国社会。）
- ② **枝叶** Just as..., so... → 类比结构“正如……，……也一样”；to make his way up... → 不定式作定语修饰 attempts；speak volumes about 充分说明。
- ③ **语序** Just as 从句译“正如……”；主句用“也……”呼应。
- ④ **译文** 正如密码破译在争夺西班牙的斗争中具有更广泛的意义一样，他努力在晋升阶梯上向上攀登的经历，也充分说明了英国社会的情况。

长难句训练营（A—E）

A·划主干（先写后对）

A·划主干：先自己写出句子主干（主谓/主系表），再对照；不确定的句子点“加入错句本”。

1. Though plants lack brains, the firing of electrical signals in their stems and leaves nonetheless triggered responses that hinted at consciousness, researchers previously reported.

在此写主干（主谓/主系表）

2. Plant biology is complex and fascinating, but it differs so greatly from that of animals that so-called evidence of plants' intelligence is inconclusive, the authors wrote.

在此写主干（主谓/主系表）

3. This perspective makes sense if you simplify the workings of a complex brain, reducing it to an array of electrical pulses; cells in plants also communicate through electrical signals.

在此写主干（主谓/主系表）

4. It was also, and this is unknown even to many people well read about the period, a battle between those who made codes and those who broke them.

在此写主干（主谓/主系表）

5. It listed many documents in code that had been captured from the French army of Spain, and whose secrets had been revealed by the work of one George Scovell, an officer in British headquarters.

在此写主干（主谓/主系表）

6. Oman rated Scovell's significance highly, but at the same time, the general nature of his History meant that he could not analyze carefully what this obscure officer may or may not have contributed to that great struggle.

在此写主干（主谓/主系表）

7. Because employment protection laws make it costlier to fire an employee, employers are more cautious about hiring new staff.

在此写主干（主谓/主系表）

8. Just as the code breaking has its wider relevance in the struggle for Spain, so his attempts to make his way up the promotion ladder speak volumes about British society.

在此写主干（主谓/主系表）

B · 回译（看中文写英文）

C · 仿写模板库（按结构套写）

D · 结构分类题库

E · 错句本（隔日复习）

语法专项（本卷句子·先做后对）

本套卷语法考点清单与教学

一、时态：一般现在 / 现在完成 / 一般过去

普遍规律与观点用一般现在（differ / makes sense / pay staff less）；由过去持续或强调影响用现在完成（have argued / has been increasing）；叙述研究过程用一般过去（found / listed / rated）。

二、被动语态

动作承受者作主语用 be+过去分词：be attributed to / had been captured / had been revealed / be voted down；注意过去完成时的被动。

三、非谓动词

动名词作主语或宾语（the firing of electrical signals / hiring new staff）；不定式作目的、定语或形式宾语（to make his way up / make it costlier to fire）；分词作定语或状语（reducing it to... / well read about the period）。

四、三大从句

宾语从句：meant that... / what this officer may have contributed；定语从句：responses that hinted... / those who made codes；让步状语从句：Though plants lack brains；结果状语从句：so...that...。

语法专项练习（先做再看答案）

直接在题目 ____ 处手写答案（Apple Pencil / 手指）；提示词为蓝色，每句下方给出中文意思。写完再展开“参考答案”核对。笔迹自动保存。

一、时态练习

1. Plant biology _____ greatly from that of animals. (differ)

句意：植物生物学与动物生物学差异很大。

2. Some scientists _____ that plants possess neuron-like cells. (argue)

句意：一些科学家主张植物拥有类神经细胞。

3. The number of graduates in non-graduate roles over the years. **(increase)**

句意：从事非学位工作的毕业生人数逐年增加。

4. Oman Scovell's significance highly. **(rate)**

句意：奥曼高度评价斯科维尔的重要性。

二、被动语态练习

5. Plant behavior could to intelligence in animals. **(attribute)**

句意：植物行为可被归因于动物的智力。

6. Many documents in code from the French army. **(capture)**

句意：许多密码文件是从法军那里缴获的。

7. The Bill down after the change in government. **(vote)**

句意：该法案在政府更迭后被否决。

8. His work by the class politics of the army. **(bound up)**

句意：他的工作与军队的阶级政治密切相关。

三、非谓语句练习

9. the workings of a brain, you simplify it. **(Simplify)**

句意：简化大脑的运作，你就是在把它简化。

10. Employers are cautious about new staff. **(hire)**

句意：雇主对招聘新员工很谨慎。

11. Laws make it costlier an employee. **(fire)**

句意：法律使解雇员工的成本更高。

12. it to electrical pulses, the analogy makes sense. **(Reduce)**

句意：把它归结为电脉冲，这一类比就说得通。

四、从句练习

13. plants lack brains, they triggered responses. **(Though)**

句意：虽然植物没有大脑，它们仍触发了反应。

14. The responses hinted at consciousness were reported. **(that)**

句意：那些暗示意识的反应被报道了。

15. It differs so greatly the evidence is inconclusive. **(that)**

句意：差异如此之大，以至于证据不充分。

16. This is a battle between those made codes. **(who)**

句意：这是一场编制密码者之间的较量。

参考答案

练习	答案
时态	1 differs 2 have argued 3 has increased 4 rated
被动	1 be attributed 2 had been captured 3 was voted 4 was bound up
非谓语句	1 Simplifying 2 hiring 3 to fire 4 Reducing
从句	1 Though 2 that 3 that 4 who
