Caravanserais were roadside inns that were built along the Silk Road in areas including China, North Africa and the Middle East. They were typically outside the walls of a city or village and were usually funded by local governments or .

This word “Caravanserais” is a of the Persian words “Karvan”, which means a group of travellers or a caravan, and “saray”, a palace or enclosed building. The term caravan was used to groups of people who travelled together across the ancient network for safety reasons, merchants, travellers or pilgrims.

From the 10th century onwards, as merchant and travel routes became more developed, the of caravanserais increased and they served as a safe place for people to rest at night. Travellers on the Silk Road the possibility of being attacked by thieves or being to extreme weather conditions. For this reason, caravanserais were strategically placed they could be reached in a day’s travel time.

Caravanserais served as an informal point for the various people who travelled the Silk Road. , these structures became important centers for cultural and interaction, with travellers sharing their cultures, ideas and beliefs, taking knowledge with them, greatly the development of several civilisations.

Caravanserais were also an important marketplace for commodities and in the trade of goods along the Silk Road. , it was frequently the first stop for merchants looking to sell their wares and supplies for their own journeys. It is that around 12,000 to 15,000 caravanserais were built along the Silk Road, only about 3,000 are known to remain today, many of which are in .

Text 1 (德州气候教育之争)

The weather in Texas may have cooled since the recent extreme heat, but the temperature will be high at the State Board of Education meeting in Austin this month as officials debate how climate change is taught in Texas schools.

Pat Hardy, who sympathises with the views of the energy sector, is resisting proposed changes to science standards for pre-teen pupils. "There are as many scientists working against all the panic of global climate change as there are those who are pushing it," she claims. "Texas is an energy state and we need to recognise that. You need to remember where your bread is buttered."

Most scientists and experts sharply dispute Hardy's views. Board members like her "casually dismiss the career work of scholars and scientists as just another misguided opinion," says Dan Quinn, senior communications strategist at the Texas Freedom Network, a non-profit group that monitors public education.

Such debates reflect fierce discussions across the US, as researchers, policymakers, teachers and students step up demands for a greater focus on teaching about the facts of climate change in schools.

A study last year by the National Center for Science Education, a non-profit group of scientists and teachers, looking at how state public schools across the country address climate change in science classes, gave barely half of US states a grade B+ or higher. Among the 10 worst performers were some of the most populous states, including Texas, which was given the lowest grade (F) and has a disproportionate influence because its textbooks are widely sold elsewhere.

Glenn Branch, the center's deputy director, cautions that setting state-level science standards is only one limited benchmark in a country that decentralises decisions to local school boards. Even if a state is considered a high performer in its science standards, "that does not mean it will be taught", he says.

Another issue is that, while climate change is well integrated into some subjects and at some ages — such as earth and space sciences in high schools — it is not as well represented in curricula for younger children and in subjects that are more widely taught, such as biology and chemistry. It is also less prominent in many social studies courses.

Branch points out that, even if a growing number of official guidelines and textbooks reflect scientific consensus on climate change, unofficial educational materials that convey more slanted perspectives are being distributed to teachers. They include materials sponsored by libertarian think-tanks and energy industry associations.

21. In Paragraph 1, the weather in Texas is mentioned to ____

forecast a policy shift in Texas schools.

stress the consequences of climate change.

Text 2 (短租监管之争)

Communities throughout New England have been attempting to regulate short-term rentals since sites like Airbnb took off in the 2010s. Now, with record-high home prices and historically low inventory, there's an increased urgency in such regulation, particularly among those who worry that developers will come in

and buy up swaths of housing to flip for a fortune on the short-term rental market.

In New Hampshire, where the rental vacancy rate has dropped below 1 percent, housing advocates fear unchecked short-term rentals will put further pressure on an already strained market. The State Legislature recently voted against a bill that would've made it illegal for towns to create legislation restricting short-term rentals.

"We are at a crisis level on the supply of rental housing," said Nick Taylor, executive director of the Workforce Housing Coalition of the Greater Seacoast. Without enough affordable housing in southern New Hampshire towns, "employers are having a hard time attracting employees, and workers are having a hard time finding a place to live," Taylor said.

However, short-term rentals also provide housing for tourists, pointed out Ryan Castle, CEO of a local association of realtors. "A lot of workers are servicing the tourist industry, and the tourism industry is serviced by those people coming in short term," Castle said, "and so it's a cyclical effect."

Short-term rentals themselves are not the crux of the issue, said Keren Horn, an expert on affordable housing policy. "I think individuals being able to rent out their second home is a good thing. If it's their vacation home anyway, and it's just empty, why can't you make money off it?" Horn said. Issues arise, however, when developers attempt to create large-scale short-term rental facilities — de facto hotels — to bypass taxes and regulations. "I think the question is, shouldn't a developer who's really building a hotel, but disguising it as not a hotel, be treated and taxed and regulated like a hotel?" Horn said.

At the end of 2018, Governor Charlie Baker of Massachusetts signed a bill to rein in those potential investor-buyers. The bill requires every rental host to register with the state, mandates they carry insurance, and opens the potential for local taxes on top of a new state levy. Boston took things even further, requiring renters to register with the city's Inspectional Services Department.

Horn said similar registration requirements could benefit struggling cities and towns, but "if we want to make a change in the housing market, the main one is we have to build a lot more."

26. Which of the following is true of New England?

- Its housing supply is at a very low level.
- Its communities are in need of funding.
- Its rental vacancy rate is going up slowly.
- Its home prices are under strict control.

Text 3 (出版社与书店之争)

If you're heading for your nearest branch of Waterstones, the biggest book retailer in the UK, in search of the Duchess of Sussex's new children's book *The Bench*, you might have to be prepared to hunt around a bit; the same may be true of *The President's Daughter*, the new thriller by Bill Clinton and James Patterson. Both of these books are published next week by Penguin Random House (PRH), a company currently involved in a stand-off with Waterstones.

The problem began late last year, when PRH confirmed that it had introduced a credit limit with Waterstones "at a very significant level". The trade magazine *The Bookseller* reported that Waterstones branch managers were being told to remove PRH books from prominent areas such as tables, display spaces and windows, and were "quietly retiring them to their relevant sections".

PRH declined to comment on the issue, but a spokesperson for Waterstones told me: "Waterstones are currently operating with reduced credit terms from PRH, the only publisher in the UK to place any limitations on our ability to trade. We are not boycotting PRH titles but we are doing our utmost to ensure that availability for customers remains good despite the lower overall levels of stock." "We are hopeful with our shops now open again that normality will return and that we will be allowed to buy appropriately. Certainly, our shops are exceptionally busy. The sales for our May Books of the Month surpassed any month since 2018."

In the meantime, PRH authors have been the losers. Big-name PRH authors may suffer a bit, but it's those mid-list authors, who normally rely on Waterstones staff's passion for promoting books by lesser-known writers, who will be praying for an end to the dispute.

It comes at a time when authors are already worried about the consequences of the proposed merger between PRH and another big publisher, Simon & Schuster — the reduction in the number of unaligned UK publishers is likely to lead to fewer bidding wars, lower advances, and more conformity in terms of what is published.

"This is all part of a wider change towards concentration of power," says literary agent Andrew Lownie. "The publishing industry talks about diversity in terms of authors and staff but it also needs a plurality of ways of delivering intellectual contact, choice and different voices. After all, many of the most interesting books in recent years have come from small publishers."

We shall see whether that plurality is a casualty of the current need among publishers to be big enough to take on all-comers.

Section II · Part A Text 4

Text 4 (引用操纵与掠夺性期刊)

Scientific papers are the recordkeepers of progress in research. Each year researchers publish millions of papers in more than 30,000 journals. The scientific community measures the quality of those papers in a number of ways, including the perceived quality of the journal (as reflected by the title's impact factor) and the number of citations a specific paper accumulates. The careers of scientists and the reputation of their institutions depend on the number and prestige of the papers they produce, but even more so on the citations attracted by these papers.

Citation cartels, where journals, authors, and institutions conspire to inflate citation numbers, have existed for a long time. In 2016, researchers developed an algorithm to recognize suspicious citation patterns, including groups of authors that disproportionately cite one another and groups of journals that cite each other frequently to increase the impact factors of their publications. Recently, another expression of this predatory behavior has emerged: so-called support service consultancies that provide language and other editorial support to individual authors and to journals sometimes advise contributors to add a number of citations to their articles.

The advent of electronic publishing and authors' need to find outlets for their papers resulted in thousands of new journals. The birth of predatory journals wasn't far behind. These journals can act as milk cows where every single article in an issue may cite a specific paper or a series of papers. In some instances, there is absolutely no relationship between the content of the article and the citations. The peculiar part is that the journal that the editor is supposedly working for is not profiting at all — it is just providing citations to other journals. Such practices can lead an article to accrue more than 150 citations in the same year that it was published.

How insidious is this type of citation manipulation? In one example, an individual — acting as author, editor, and consultant — was able to use at least 15 journals as citation providers to articles published by five scientists at three universities. The problem is rampant in Scopus, a citation database, which includes a high number of the new “international” journals. In fact, a listing in Scopus seems to be a criterion to be targeted in this type of citation manipulation.

Scopus itself has all the data necessary to detect this malpractice. Red flags include a large number of citations to an article within the first year. And for authors who wish to steer clear of citation cartel activities: when an editor, a reviewer, or a support service asks you to add inappropriate references, do not oblige and do report the request to the journal.

36. According to Paragraph 1, the careers of scientists can be determined by ____

- how many citations their works contain.
- how many times their papers are cited.
- the prestige of the people they work with.
- the status they have in scientific circles.

Section II · Part B 新题型（41–45 段落排序）

下列段落顺序被打乱（41–45），请从 A–H 中选出正确顺序填入方框；其中 A、E、H 已正确定位。

📌 41–45 解题方法与技巧（排序题·先看这里）

- 先看已给段：**A、C、H 已定位，先读它们，把握全文主题与叙述走向。
- 抓逻辑衔接词：**however / therefore / for example / moreover / also / but / so → 判断前后关系（转折、因果、举例、递进）。
- 看指代与词汇复现：**this / these / such + 名词、同词复现、近义替换 → 与上一段末尾内容配对（这是排序题第一信号）。
- 找顺序线索：**时间（five years ago / in recent summers）、空间、由概括到具体、由问题到对策。
- 先易后难：**先把能确定相邻的两段配对，剩下用排除法填；注意选项只能从待选段落中取。
- 复核：**按所选顺序连读一遍，检查每处衔接是否自然、指代是否有指、逻辑是否通顺。

题文骨架（虚线框=待你填；实线框=已给出）

待选段落（B、C、D、F、G）

原文段落

- A.** This year marks the 150th anniversary of a series of Yellowstone photographs by the renowned landscape photographer William Henry Jackson. He captured the first-ever shots of iconic landmarks such as the Tetons, Old Faithful and the Colorado Rockies. Jackson snapped them on a late 19th-century expedition through the Yellowstone Basin that was conducted by the head of the U.S. Geological and Geographical Survey of the Territories, Ferdinand V. Hayden. The team included a meteorologist, a zoologist, a mineralogist, and an agricultural statistician. （已给出）
- B.** Two centuries ago, the idea of preserving nature, rather than exploiting it, was a novel one to many U.S. settlers. One of the turning points in public support for land conservation efforts — and recognizing the magnificence of the Yellowstone region in particular — came in the form of vivid photographs.
- C.** As an effective Washington operator, Hayden sensed that he could capitalize on the expedition’s stunning visuals. He asked Jackson to print out large copies and distributed them, along with reproductions of Moran’s paintings, to each member of Congress. “The visualization, particularly those photographs, really hit home that this is something that has to be protected,” says Murphy.

D. Throughout the trip, Jackson juggled multiple cameras and plate sizes using the “collodion process” that required him to coat the plates with a chemical mixture, then expose them and develop the resulting images with a portable darkroom. The crude technique required educated guesses on exposure times, and involved heavy, awkward equipment — several men had to assist in its transportation. Despite these challenges, Jackson captured dozens of striking photos, ranging from majestic images like his now-famous snapshot of Old Faithful, to casual portraits of expedition members at the camp. While veterans of previous expeditions wrote at length about stunning trail sights, these vivid photographs were another thing entirely.

E. The journey officially began in Ogden, Utah on June 8, 1871. Over nearly four months, dozens of men made their way on horseback into Montana and traversed along the Yellowstone River and around Yellowstone Lake. That fall, they concluded the survey in Fort Bridger, Wyoming. （已给出）

F. Though Native Americans (and later miners and fur trappers) had long recognized the area’s riches, most Americans did not. That’s why Hayden’s expedition aimed to produce a fuller understanding of the Yellowstone River region, from its hot springs and waterfalls to its variety of flora and fauna. In addition to the entourage of scientists, the team also included artists: Painter Thomas Moran and photographer William Henry Jackson were charged with capturing this astounding natural beauty and sharing it with the world.

G. The bill proved largely popular and sailed through Congress with large majorities in favor. In quick succession, the Senate and House passed legislation protecting Yellowstone in early 1872. That March, President Ulysses S. Grant signed an act into law that established Yellowstone as the world’s first national park. While some locals opposed to the designation, the decision was largely accepted — and Jackson’s photos played a key role in the fight to protect the area.

H. Perhaps most importantly, the images provided documentary evidence of the park’s sights that later made its way to government officials. Weeks after completing the expedition, Hayden collected his team’s observations into an extensive report aimed at convincing senators and representatives, along with colleagues at government agencies like the Department of the Interior, that Yellowstone ought to be preserved. （已给出）

There has been some exploration around the use of AI in digital marketing. For example, AI can be used to analyse what type of advertising content or copy would be appropriate to ‘speak’ to a specific target customer group by revealing information about trends and preferences through the analysis of big data. **(46) AI can also be used to identify the lifestyle choices of customers regarding their hobbies, favourite celebrities, music choices, and fashions to provide unique content in marketing messages put out through social media.** At the same time AI can also be used to generate content for social media posts and chat sites. AI can also provide a bridge between the need of the brand to communicate emotionally with the customer and identifying their rapidly changing needs. The main disadvantage of using AI to respond to customers is that there are concerns about trusting personal interactions to machines, which could lead not only to the subsequent loss of interpersonal connections, but also to a decrease in marketing personnel. **(47) Some believe that AI is negatively impacting on the marketer’s role by reducing creativity and removing jobs, but they are aware that it is a way of reducing costs and creating new information.** By allowing AI to develop content some brand marketers may find that they are losing control over the brand narrative. **(48) Algorithms that are used to simulate human interactions are creating many of these concerns, especially as no-one is quite sure what the outcomes of using AI to interact with customers will be.** For AI to be successful, data needs to be accessible, but the use of personal data is becoming more regulated and the automated sharing of data is becoming more difficult. **(49) If customers are not willing to share data, AI will be starved of essential information and will not be able to function effectively or employ machine learning to improve its marketing content and communication.** Therefore, unless customers are prepared to sign release agreements, the use of AI may become somewhat restricted in the future. Not only can AI help to create the marketing content, but it can also provide a non-intrusive way of delivering the content to the target customers. Data can be gathered on where the customer can be engaged, such as location, devices used, website interactions, and sites visited, to display marketing messages in appropriate forms, including emails, social media posts, pop-up advertisements, and banners at an appropriate frequency. **(50) The non-intrusive delivery of the marketing messages in a way that is sensitive to the needs of the target customer is one of the critical challenges to the digital marketer.**

46. AI can also be used to identify the lifestyle choices of customers regarding their hobbies, favourite celebrities, music choices, and fashions to provide unique content in marketing messages put out through social media.

答案

47. Some believe that AI is negatively impacting on the marketer’s role by reducing creativity and removing jobs, but they are aware that it is a way of reducing costs and creating new information.

答案

48. Algorithms that are used to simulate human interactions are creating many of these concerns, especially as no-one is quite sure what the outcomes of using AI to interact with customers will be.

答案

49. If customers are not willing to share data, AI will be starved of essential information and will not be able to function effectively or employ machine learning to improve its marketing content and communication.

Part B 大作文 (图表作文 · 160–200词)

题目: Write an essay of 160–200 words based on the picture below. 1) describe the picture; 2) interpret the implied meaning; 3) give your comments. 图中村民观看龙舟赛, 有人感叹: “真好啊, 咱们村的龙舟 (队) ……”

原题表格 (据此作文)

图	内容	含义
图	村民齐聚观看本村龙舟赛，满心欢喜	传统节日活动重新热闹起来
图	龙舟竞渡、众人协作	传统文化的传承与团结精神

图画主题：传统文化传承/文化自信

第一步 审题

图表类型：数据表（每百户耐用消费品拥有量 2014–2023）；任务：①描述数据 ②解释含义 ③给出评论；三段式。

第二步 头脑风暴

角度	可写内容	作用
描述	air conditioners 75.2→145.9; washing machines 83.7→98.2; refrigerators 85.5→103.4	数据准确
原因	rising incomes; upgrading of consumption; better living standards	解释趋势
评论	consume responsibly; energy-saving; recycle old appliances	观点升华

第三步 列提纲（三段式）

段	功能	模板句
P1	描述图画	The picture shows villagers happily watching a dragon boat race in their village.
P2	解读含义	It reflects the revival of traditional culture and the value of unity and cultural confidence.
P3	评论建议	We should carry forward our fine traditional culture and keep it alive in daily life.

第四步 逐句写成文（范文）

As is shown in the picture, villagers are gathering to watch a dragon boat race held in their own village, and an old man says with delight, “How wonderful! Our village’s dragon boat team...” The scene is full of joy and vitality.

The picture conveys a meaningful message: fine traditional culture is coming back to life in people’s daily lives. The dragon boat race is not merely a competition; it reflects the unity and hard work of the whole community and shows our growing cultural confidence. As traditional festivals and customs are revived, people feel a stronger sense of belonging and pride.

In my view, we should attach great importance to carrying forward our excellent traditional culture. Schools and communities can hold more activities such as dragon boat races and festival celebrations to let the young take part in them. Only when tradition is rooted in everyday life can it be passed down from generation to generation.

第五步 检查

160–200词；数据引用准确；首段描述、中段解释、末段评论；衔接词（As is shown / Such a trend / In my view）；语法与拼写。

 分步手写默写（每段一块：先写，再点“显示答案”对照）

P1 描述图表

模板：As is shown in the table, the number of major durable consumer goods per 100 households kept rising from 2014 to 2023.

答案

P2 解读含义

模板：Such a trend clearly reflects the improvement of people's living standards and the upgrading of household consumption.

长难句精讲（四步拆句·一目了然）

四步法：① 找主干（几个谓语切几段，先划掉从句/插入语）→ ② 理枝叶（每块修饰谁）→ ③ 排语序（定语前置/长状语拆句）→ ④ 出译文。

1. The weather in Texas may have cooled since the recent extreme heat, but the temperature will be high at the State Board of Education meeting in Austin this month as officials debate how climate change is taught in Texas schools.

- ① 主干The temperature will be high at the meeting.（会议上的“温度”将会很高。）
- ② 枝叶may have cooled 与 will be high 形成对比（双关）；but 转折；as officials debate... → 时间/原因状语从句；how... → 宾语从句。
- ③ 语序让步/对比顺译；as 从句译“随着/当……时”；temperature 双关译加引号。
- ④ 译文自最近的极端高温以来，得克萨斯州的天气或许已转凉，但本月在奥斯汀举行的州教育委员会会议上，“温度”将会很高，因为官员们将辩论该州学校如何教授气候变化。

2. Board members like her “casually dismiss the career work of scholars and scientists as just another misguided opinion,” says Dan Quinn.

- ① 主干Board members dismiss the career work as just another opinion.（委员们把学者们的毕生工作贬为又一种错误观点。）
- ② 枝叶like her → 介词短语作后置定语；dismiss A as B → 把 A 贬为 B；says Dan Quinn → 倒装引述。
- ③ 语序引述部分“丹·奎因说”可前置；dismiss...as 译“把……贬为……”。
- ④ 译文丹·奎因说，像她这样的委员“轻率地把学者和科学家的毕生工作贬为又一种错误的观点”。

3. A study last year by the National Center for Science Education, a non-profit group of scientists and teachers, looking at how state public schools across the country address climate change in science classes, gave barely half of US states a grade B+ or higher.

- ① 主干A study gave barely half of US states a grade B+ or higher.（一项研究给不到一半的州打了 B+ 或更高。）
- ② 枝叶by the National Center... → 后置定语；a non-profit group... → 同位语；looking at how... → 现在分词作后置定语；address climate change 应对气候变化。
- ③ 语序同位语与分词定语用括号/“.....”的译出；主干顺译。
- ④ 译文去年，由科学家和教师组成的非营利组织“国家科学教育中心”开展了一项研究，考察全国各州公立学校在科学课上如何处理气候变化问题，结果只有不到一半的州获得 B+ 或更高评分。

4. Even if a state is considered a high performer in its science standards, “that does not mean it will be taught”, he says.

- ① 主干That does not mean it will be taught.（那并不意味着它会被教授。）
- ② 枝叶Even if... → 让步状语从句；be considered a high performer 被认为表现出色；he says 引述。
- ③ 语序让步从句译“即使.....”；引述“他说”可前置或后置。
- ④ 译文他说，即使某个州在科学标准上被认为表现出色，“那也并不意味着它会被真正教授”。

5. It comes at a time when authors are already worried about the consequences of the proposed merger between PRH and another big publisher, Simon & Schuster — the reduction in the number of unaligned UK publishers is likely to lead to fewer bidding wars, lower advances, and more conformity in terms of what is published.

- ① 主干It comes at a time when authors are worried about the consequences.（此事发生之际，作者们本就担忧其后果。）
- ② 枝叶when... → 定语从句修饰 a time；the proposed merger... → 同位语；破折号后为对后果的解释；what is published → 宾语从句。
- ③ 语序定语从句译“在.....之际”；破折号后顺译解释“独立出版商减少将导致.....”。
- ④ 译文此事发生之际，作者们本已担忧 PRH 与另一家大出版商西蒙与舒斯特拟议合并的后果——英国独立出版商数量的减少，可能导致竞价战减少、预付稿酬降低，以及出版内容更加趋同。

6. “This is all part of a wider change towards concentration of power,” says literary agent Andrew Lownie.

- ① 主干This is part of a wider change.（这是更大变革的一部分。）
- ② 枝叶towards concentration of power → 介词短语作后置定语；says literary agent... → 引述倒装。
- ③ 语序引述“文学经纪人安德鲁·朗尼说”可前置。
- ④ 译文文学经纪人安德鲁·朗尼说：“这都是朝向权力集中这一更大变革的一部分。”

7. Scopus itself has all the data necessary to detect this malpractice.

- ① 主干Scopus has all the data.（Scopus 拥有全部数据。）
- ② 枝叶itself 强调；necessary to detect... → 形容词短语作后置定语修饰 data。
- ③ 语序后置定语前置译“检测这种不当行为所需的（全部数据）”。
- ④ 译文Scopus 本身拥有检测这种不当行为所需的全部数据。

8. The non-intrusive delivery of the marketing messages in a way that is sensitive to the needs of the target customer is one of the critical challenges to the digital marketer.

- ① 主干The delivery is one of the critical challenges.（这种传递方式是重大挑战之一。）
- ② 枝叶of the marketing messages → 后置定语；in a way that... → 方式状语从句；be sensitive to 体察；one of the... → 表语。
- ③ 语序长主语顺译，方式状语提前“以.....的方式”；one of... 译“.....之一”。
- ④ 译文以敏锐体察目标客户需求的方式非侵入性地传递营销信息，是数字营销者面临的重大挑战之一。

长难句训练营（A—E）

A·划主干（先写后对）

A·划主干：先自己写出句子主干（主谓/主系表），再对照；不确定的句子点“加入错句本”。

1. The weather in Texas may have cooled since the recent extreme heat, but the temperature will be high at the State Board of Education meeting in Austin this month as officials debate how climate change is taught in Texas schools.

在此写主干（主谓/主系表）

2. Board members like her “casually dismiss the career work of scholars and scientists as just another misguided opinion,” says Dan Quinn.

在此写主干（主谓/主系表）

3. A study last year by the National Center for Science Education, a non-profit group of scientists and teachers, looking at how state public schools across the country address climate change in science classes, gave barely half of US states a grade B+ or higher.

在此写主干（主谓/主系表）

4. Even if a state is considered a high performer in its science standards, “that does not mean it will be taught”, he says.

在此写主干（主谓/主系表）

5. It comes at a time when authors are already worried about the consequences of the proposed merger between PRH and another big publisher, Simon & Schuster — the reduction in the number of unaligned UK publishers is likely to lead to fewer bidding wars, lower advances, and more conformity in terms of what is published.

在此写主干（主谓/主系表）

6. “This is all part of a wider change towards concentration of power,” says literary agent Andrew Lownie.

在此写主干（主谓/主系表）

7. Scopus itself has all the data necessary to detect this malpractice.

在此写主干（主谓/主系表）

8. The non-intrusive delivery of the marketing messages in a way that is sensitive to the needs of the target customer is one of the critical challenges to the digital marketer.

在此写主干（主谓/主系表）

语法专项（本卷句子·先做后对）

本套卷语法考点清单与教学

一、时态：一般现在 / 现在完成 / 一般过去

普遍规律与观点用一般现在（depend on / is considered）；由过去持续或强调影响用现在完成（have attempted / has dropped）；叙述历史事件用一般过去（captured / began / signed）。

二、被动语态

动作承受者作主语用 be+过去分词：were located / be subjected to / is considered / were given；注意 be considered + 名词/形容词。

三、非谓语动词

动名词作主语或宾语（preserving nature / removing jobs）；不定式作目的、定语或宾语（aimed to produce / necessary to detect / advised to add）；分词作定语或状语（looking at how... / influenced by...）。

四、三大从句

宾语从句：debate how climate change is taught / no-one is sure what the outcomes...；定语从句：a time when authors are worried / algorithms that are used...；让步状语从句：Even if a state is considered...；方式状语从句：in a way that is sensitive...。

语法专项练习（先做再看答案）

直接在题目 ____ 处手写答案（Apple Pencil / 手指）；提示词为蓝色，每句下方给出中文意思。写完再展开“参考答案”核对。笔迹自动保存。

一、时态练习

1. Caravanserais _____ as a safe place for people to rest at night. (serve)

句意：客栈充当人们夜间休息的安全之所。

2. Communities _____ to regulate short-term rentals since the 2010s. (attempt)

句意：自 2010 年代以来各社区一直试图监管短租。

3. The rental vacancy rate _____ below 1 percent. (drop)

7. A state _____ a high performer in its science standards. (consider)

句意：某州在科学标准上被认为表现出色。

8. Yellowstone _____ as the world's first national park. (establish)

句意：黄石被确立为世界第一座国家公园。

三、非谓语练习

9. _____ nature rather than exploiting it was a novel idea. (Preserve)

句意：保护而非开发自然，曾是个新观念。

10. The expedition aimed _____ a fuller understanding of the region. (produce)

句意：该探险旨在更充分地了解这一地区。

11. Algorithms used _____ human interactions create concerns. (simulate)

句意：用于模拟人类互动的算法引发担忧。

12. _____ by vivid photographs, public support grew. (Inspired)

句意：受生动照片的启发，公众支持增强了。

四、从句练习

13. Officials debate _____ climate change is taught in schools. (how)

句意：官员们辩论学校如何教授气候变化。

14. It comes at a time _____ authors are already worried. (when)

句意：此事发生之际，作者们本已担忧。

15. a state is considered a high performer, that does not mean it will be taught. (Even if)

句意：即使某州表现出色，也并不意味着会被教授。

16. Messages are delivered in a way is sensitive to customers' needs. (that)

句意：信息以体察客户需求的方式传递。
